

## TransLumi Line

TransLumi Line is a regular ro-ro-service connecting the Bay of Bothnia with South-western Baltic Sea. With three departures every week from Kemi, Oulu, Lübeck and Gothenburg respectively; TransLumi Line provides the most convenient choice of transport for the manufacturing industry as well as for forwarders and shipping lines. Kemi and Oulu is the best route to destinations in North-Sweden, North-Finland and Murmansk region.

TransLumi Line has the capability to handle most types of rolling cargoes e.g. cars, trucks, trailers, heavy duty machineries, mining equipment, etc. TransLumi Line also has the capability to handle general cargo e.g. machinery parts, boats, unitized cargo, containers, tanks, etc. For general cargo a fleet of cassettes and roll-trailers with various measurements and capacity are used depending on the characteristics of the cargo.

TransLumi Line handles High & Heavy cargoes and other shipments that need special attention. Dedicated Cargo Planners and Port Captains ensure that every movement and stowage onboard will be carried out in a professional manner.
